

# INVITATION

Regina Surber, Advisor ICT4Peace Foundation ([www.ict4peace.org](http://www.ict4peace.org)), will present the Foundation's and the ZHET's current research on Lethal Autonomous Weapons Systems (LAWS), a special application case of Artificial Intelligence, whose use for humanity is debatable – and already highly debated: **The focus of the seminar will lie on the main challenges of the discussion of LAWS in the framework of the United Nations, as well as the missing key aspects of Autonomous cyber weapons and Autonomous Weapons during law enforcement.**

Regina Surber studied Legal Philosophy and Political Science at the University of Zurich and the Université de Genève in Switzerland. She worked for Human Rights Watch in Switzerland, as well as NGOs abroad (Madagascar, Cameroon), and held several teaching assistantships in political philosophy during her studies.

When: Monday, 13 November 2017, 14:00h – 15:00h

Where: Offices of Prof. Dirk Helbing, CLU Building, Level C, Room C1, Clausiusstrasse 50, 8006 Zürich Language: English

Please RSVP to Daniel Stauffacher, President, ICT4Peace Foundation and ZHET: [danielstauffacher@ict4peace.org](mailto:danielstauffacher@ict4peace.org), [www.ict4peace.org](http://www.ict4peace.org)

The ZHET has been launched in October 2016 and shall provide a space for knowledge-generating discussions that bring together experts in machine learning technology and robotics, ethicists and experts of international humanitarian and human rights law, as well as representatives of the public and private sector.
